

# Retired Racehorses Showcase at Anna Rehab

Before Christmas, Tarnz and Ashley gave up their time to represent Marsh Racing at the Anna Rehab- Equine Assisted Learning Summer Show. They caught up with some special horses who took part in the annual event with the children who work alongside them throughout the year.

Anna Rehab combines giving ex racehorses a new career with struggling children as young as 6 in programmes they both benefit from. Ash said it was an inspiration to see the children working so well with the horses, displaying brilliant horsemanship skills and how much the horses enjoyed interacting with their handlers and showing off for the crowd.

Seize the Moment (winner of 7 races including at group level) Rocanto (winner of 10) Global Currency (winner of 2) and Sexabeel are among the equine therapists connecting with the children and as you can see from the photos thriving in their new career!!

*"The horses are the therapists, the horses do the work as they connect with the children, my job is to interrupt what is going on between the horse and children."*
